

A Gene Dendrogram and Module Colors

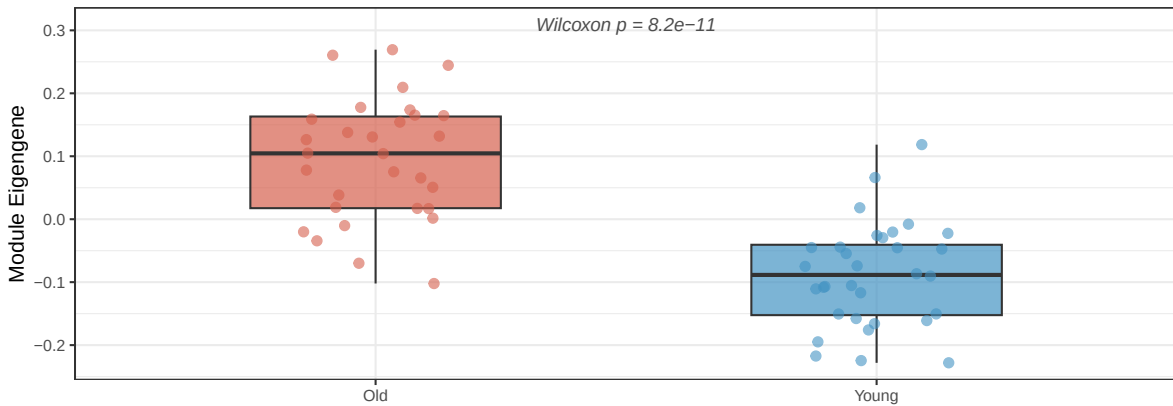

B Module-Trait Correlation Heatmap

bicor | Text shown for significant associations ($p < 0.05$)

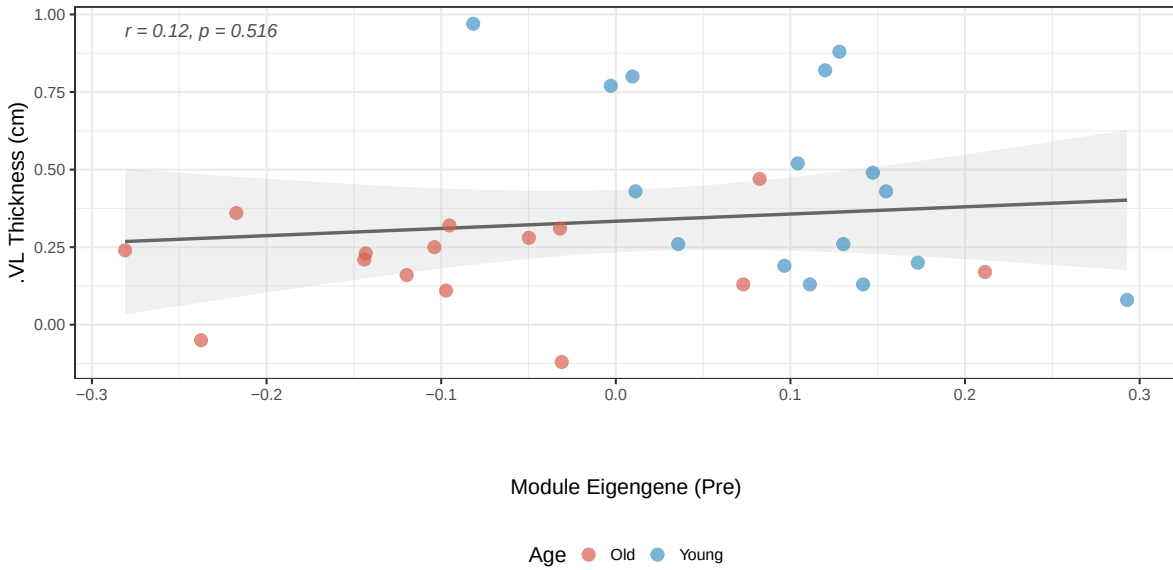

Top Age-Associated Module (Blue)

Lipid/AA Catabolism

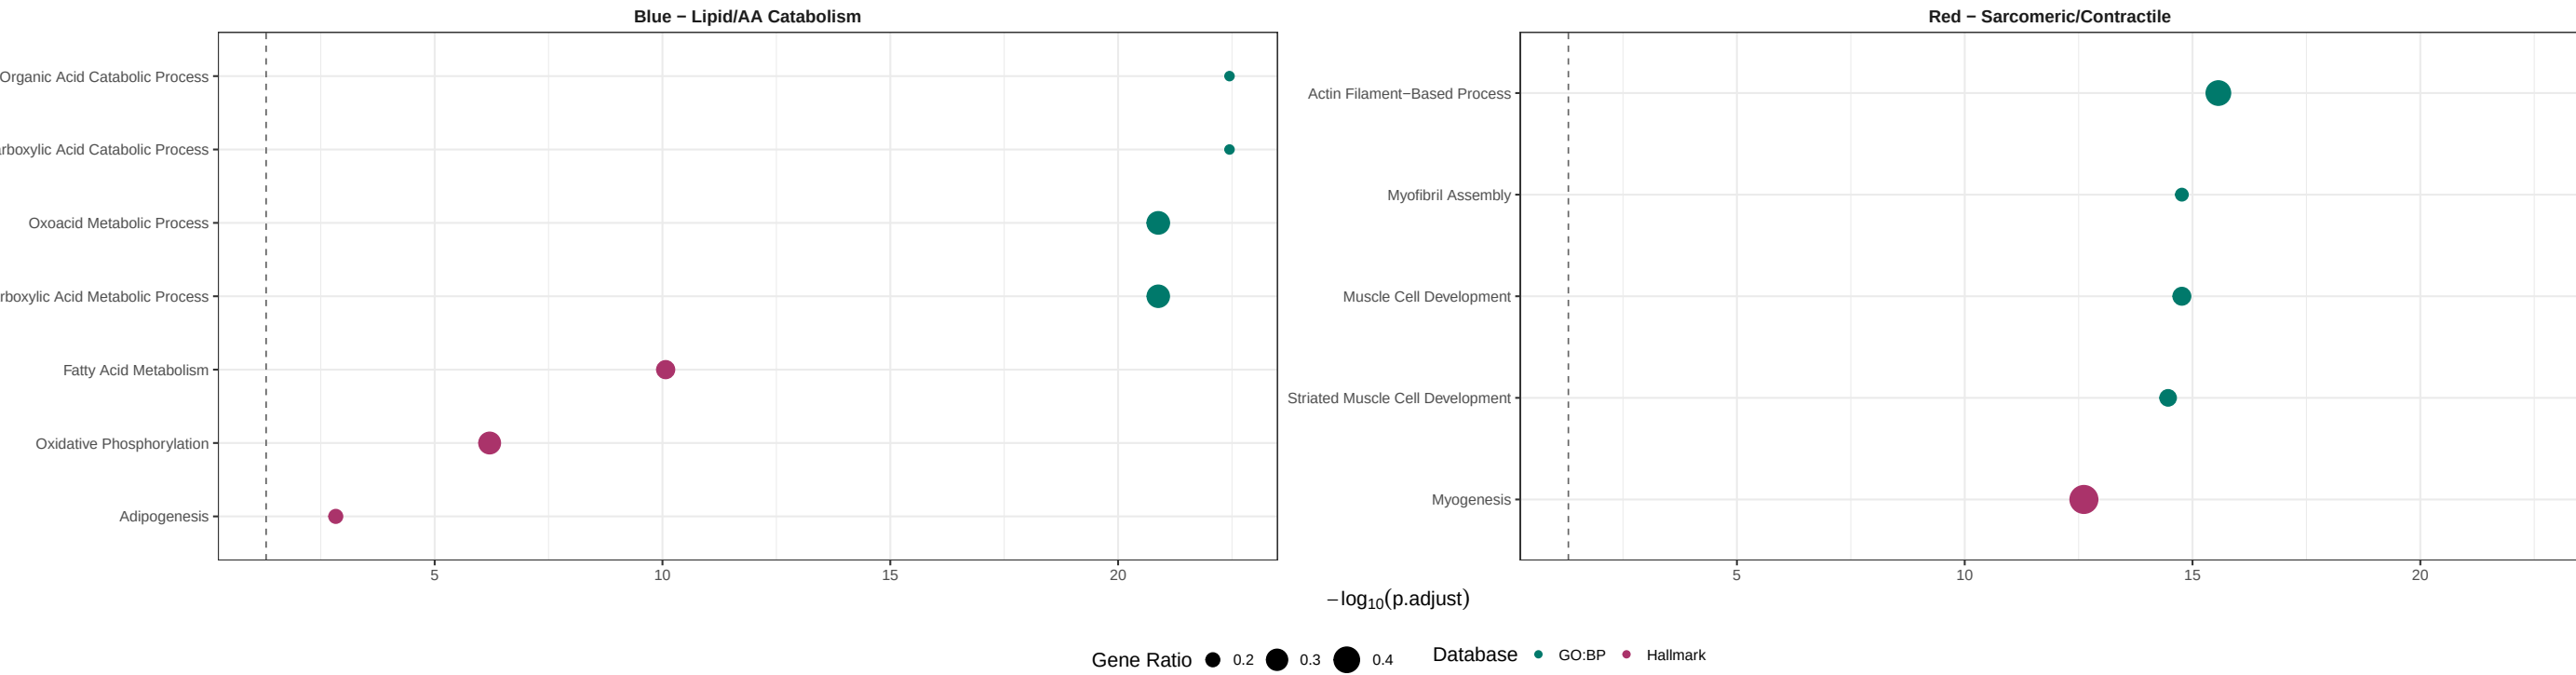

Top .VL-Associated Module (Red)

Sarcomeric/Contractile

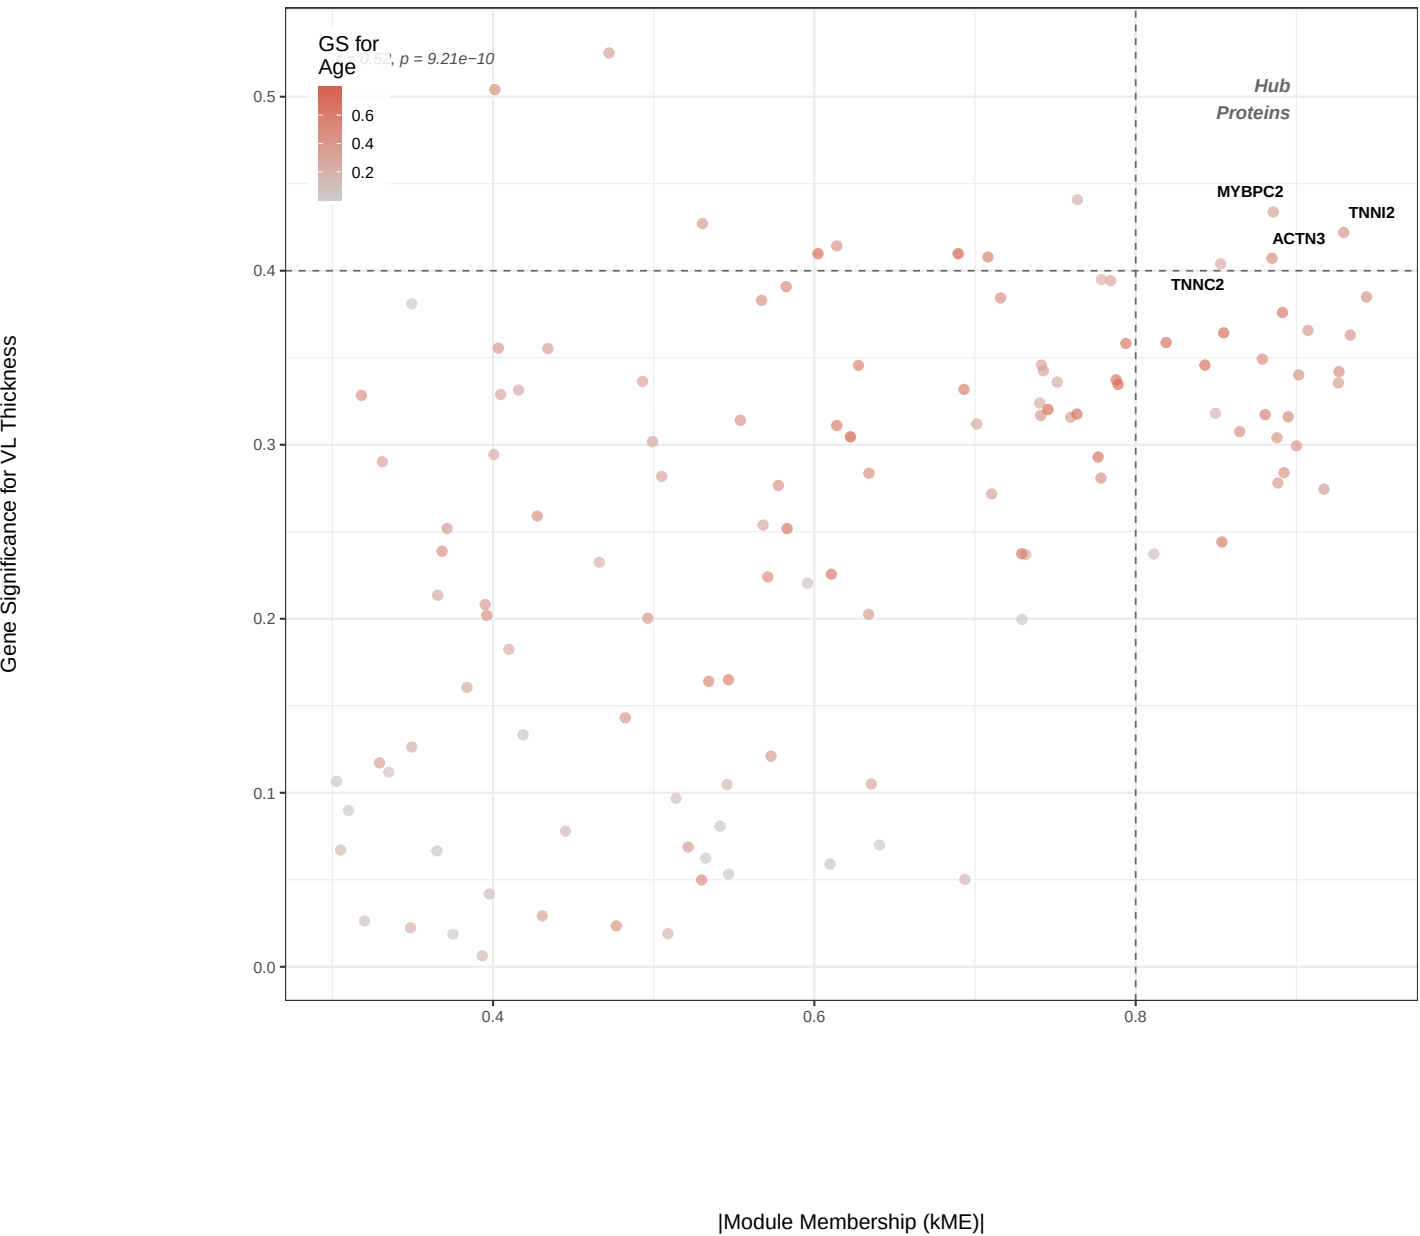

D Module Pathway Enrichment

ORA: Hallmark + GO:BP | Top-4 trait-associated modules

E Hub Identification: Red Module

Sarcomeric/Contractile (123 proteins)

F FCM x WGCNA Convergence

Fisher's exact test | Protein counts in significant cells
