

M5: Oxidative Phosphorylation

Training Young, $r = -0.45$

M5: Oxidative Phosphorylation (n=159)

ATP Synthesis Coupled Electron Transport

Respiratory Electron Transport

Cellular Respiration

Proton Transmembrane Transport

Reference Electron Transfer In Complex I

$-\log_{10}(p_{adj})$

* FDR < .05 ** FDR < .01 *** FDR < .001 (LMM, BH-corrected)
